- PG 9 | Destination Packages**
- PG 10 | Payment Plans**

**The name PMD derives from a previous business venture I started at 14 years of age, PMD Graphics. Fast forward to 2024 and the PMD name has done business in over 20 states.**

**Outside of my profession I love extreme action sports. I have raced and competed in multiple sports over the years such as downhill mtb, motocross, XC quad & dirtbike racing, bmx, and smx. Adrenaline and adventure are huge parts of my life and its fantastic to implement adventure within the world of film.**

**My name is Preston, owner of PMD Films. Before anything I am a follower of Jesus Christ and am humbled by the experiences I have been blessed with in my life.**

**I started out with film projects as a kid and throughout high school. I then furthered my education with a Bachelor's in film production from Full Sail University in Orlando, FL. A couple weeks after graduation in 2020 PMD Films was created.**

# **WHO IS PMD FILMS**

# WHY A WEDDING FILM

PMD Films is a cinema-focused company. Our luxury wedding branch takes the aspects of cinema and applies them to our wedding films. The difference between a wedding film and wedding video is tremendous. A product of quality takes both quality equipment and quality time. We use professional tools and education to further our clients investment and provide the best possible post-experience spectacle of their wedding day.

**A wedding film focuses heavily on storytelling such as that of a feature film. This requires more attention to detail both during production and post-production, often resulting in slightly longer wait times than the average wedding video. When a motion picture is in production, each shot is strategically thought out and has been through countless drafts to get on screen. The post-production team then uses high-tech color grading tools and intense audio mastering to bring the story to life. We use a similar approach for our wedding films to provide a near theatrical experience when cherishing the memories of your big day.**

Chicago River Boat Wedding | 2021

Sanibel Island, FL Engagement | 2023

**PMD Films is a faith lead company. We follow Jesus in everything we do and love working with clients that share the same passion.**

**The wedding planning standard often requires the couple to be extremely stressed; which is why we try extra hard to make our process simple and easy to understand.**

**We understand that our clients may not deal with things related to the film industry. This is why we work day and night to ensure your satisfaction, start to finish.**

# THE DIFFERENCE

## 01. Research

Research other wedding films and decide what you and your fiancé like and dislike. There are many components to a wedding film that can heighten the overall viewing experience.

Writing personal letters, audio of vows, and first looks are great examples of these. We can tailor these components into your wedding day timeline.

Keep in mind your wedding cinematographer will cost more than your photographer, this is due to film requiring much more intense detail throughout the production and post-production process.

If you already have a social status and want to match your look, we can absolutely do so. Take into consideration your venue and decorations, for example, an industrial modern look won't work at a barn venue.

## 02. Booking

Once you have decided on the wedding package you prefer, we can start the short booking process. We will setup our first call to review the information you have already compiled for your wedding.

We will also discuss the contract agreement and release forms that will need signed.

Our final call will be closer to your wedding day. We will go over the final details that we have worked together to nail down, such as your timeline. We will discuss any specific poses or trends you would like in the film as well.

All packages (excluding wedding day production) require a \$1,000.00 deposit to book your wedding date. The remaining balance will be determined on which payment plan has been chosen.

## 03. Production

On the wedding day we always arrive 1 hour early that comes as no charge.

This allows for time to review the venue physically, meet other vendors and build camera gear.

We will work very close with other vendors to ensure your day goes as smooth as possible. Not bothering either of you with annoying questions that can be answered elsewhere.

Photographers, cinematographers, and wedding planners are the people who spend the most time with the couple. This means we have a large responsibility to ensure both of you are enjoying the day you have worked so hard to build.

At the end of the day our goal is for you to have enjoyed one of the best days of your life.

## 04. Editing

The editing process is long and anticipating. This is due to the volume of weddings that are filmed in late summer and fall.

Most editing is done through the winter.

Our editing turnaround time is 4-5 months. This sounds like a substantial amount of time, however, our work requires intricate detail in each and every frame. This often requires more time for color grading, timeline building, and audio mastering.

Our wedding packages outline what is included in your wedding media folder and available for final delivery.

Music within your wedding film can be chosen by the couple through the music service we subscribe to; or the couple can trust us to use genres the couple enjoys. Music under copyright cannot be used.

Chapel wedding in the mountains of Georgetown, TN | 2023

# FILM LOOKS

Film looks describe the way you want your wedding film to look. We offer many great options, but if the look you are going for is not listed we can absolutely adjust to the specific wedding look you desire.

We are constantly learning new color sciences to provide crisp and clear color paired with excellent audio quality for a near theatrical experience of your wedding.

## BRIGHT & AIRY

- Bright highlights
- Natural skintones
- Lightened shadows
- Great for greenery
- Great for white venues

## TIMELESS

- Toned highlights
- Vogue inspired
- Desaturated skintones

# DESTINATION WEDDING PACKAGES

(765) 918-4605

[pmdfilmcompany.com](http://pmdfilmcompany.com)

[preston@pmdfilmcompany.com](mailto:preston@pmdfilmcompany.com)

All packages require a minimum \$1,000 deposit (excluding wedding day production)

## Travel

All destination wedding packages require the full reimbursement of fuel costs and/or flight costs for any and all PMD Films crew members. This includes but is not limited to: Flight ticket(s), Checked bags, rental car fees, and vehicle fuel.

An approved hotel or place of accommodation near the filming location shall be provided and paid for by the couple for any and all PMD Films crew members.

Place of lodging must be approved by a PMD Films representative due to the high value of equipment used for filming.

A 3 night minimum is required on location to ensure equipment and schedules are set for production. PMD Films does NOT upcharge any travel fees associated with the destination wedding production. PMD Films owns a production rig that can be setup near location or at a local campground for cost efficiency.

## Vintage Super 8 Add-on
